

Parent or Guardian,

Confidence in math class is an essential factor that will enable your child to succeed in high school and beyond. This year, in Algebra 1, your child will learn skills that are essential for any higher level math class, and that will appear on high stakes standardized tests, such as the PSAT which students will take in 9th or 10th grade, as well as the SAT and ACT which most students take for the first time in 11th grade. In order to support and solidify your student's math and reasoning skills, and to set her/him up for success when it comes time to study for standardized tests, **ALGEBRA NATION** offers FREE highly effective, intensive, interactive math resources. Your student will be able to watch videos and receive algebra help 24/7.

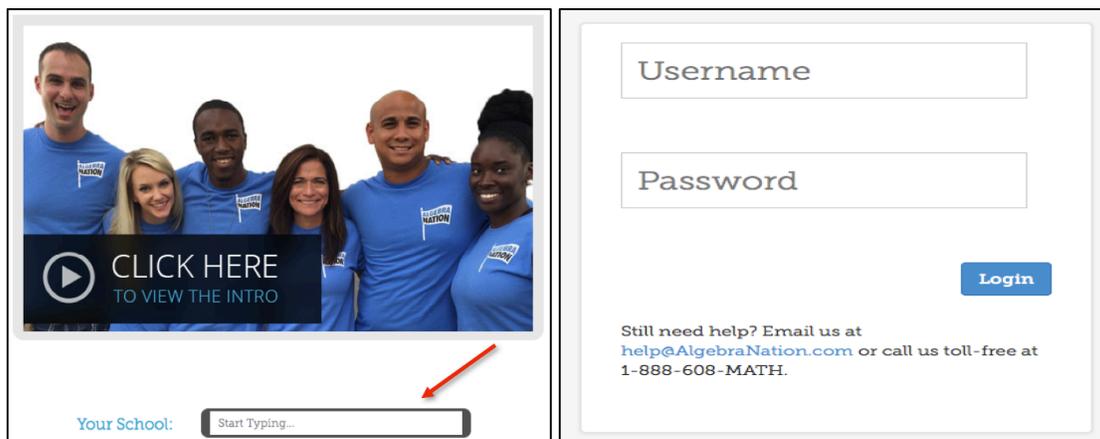

What is Algebra Nation?

Algebra Nation meets your child on his/her own time in a familiar, comfortable pressure free environment. Algebra Nation is available online, on iPads, and on iPhones and Android phones.

- Highly interactive and fun **videos** help your child review the material they learn in the classroom, even after school or on the weekends.
- **Workbooks** include **study guides** for each topic, so your child can follow along with every video by writing down notes and answering questions.
- The **"Test Yourself!"** practice tool after each section allows your student to check if he/she understood the material.
 - o "Test Yourself" questions reflect the rigor of high stakes standardized exams your student will have to take throughout high school, while offering *instant* feedback to help your student improve.
 - o The results page for each section will not only display what your child got right or wrong, but will also feature videos that break down how to solve each problem.
- The **Algebra Wall** is an interactive discussion forum where students can ask and answer questions about the material.
 - o Study Experts and teachers answer questions and read every thread to ensure the accuracy of peer replies.
 - o Students are awarded karma points when they answer questions or help other students on the Algebra Wall. During the school year, top karma point earners win prizes at the end of each month.

What can I do to help my child succeed?

Go to www.AlgebraNation.com and click "Enter Algebra Nation." Have your child enter the name of his/her school. The next screen will prompt them to enter their username and password.

The image shows two side-by-side screenshots from the Algebra Nation website. The left screenshot features a video player with a play button icon and the text "CLICK HERE TO VIEW THE INTRO". Below the video is a "Your School:" label and a text input field with the placeholder "Start Typing...". A red arrow points to this input field. The right screenshot shows a login form with two input fields labeled "Username" and "Password", a blue "Login" button, and contact information: "Still need help? Email us at help@AlgebraNation.com or call us toll-free at 1-888-608-MATH."

Ask your child to watch videos to help him/her on homework, to review for a test, or to ask questions on the Algebra Wall that weren't answered in class. Also encourage your child to regularly use the "Test Yourself!" Practice Tool. The practice tool will help your student see which parts of the material she/he understood, and which videos to review.

You can also access videos, study guides and the Algebra Wall on our free smartphone apps. Download the iPhone and Android apps by searching for 'Algebra Nation' in your phone's app store.

Need help? We have a dedicated staff available to answer questions through email and phone. Email us at Help@AlgebraNation.com or call (888) 608-MATH.

Sincerely,

The Algebra Nation team
